

1973 - 2023
ASME Federal Fellows
50th Anniversary Year

2023 FEDERAL GOVERNMENT FELLOWSHIP WITH THE U.S. DEPARTMENT OF STATE

A 1-Year Professional Experience at the Intersection of Engineering & International Policy

If you're a mechanical engineer with a graduate degree and a passion for international relations, don't miss this experience of a lifetime.

As an ASME Federal Fellow, bring your engineering expertise to the U.S. Department of State to support diplomacy around the world through development of engineering policies and programs.

- Experience a first-hand view of how engineering policy is developed and put into action
- Cultivate new leadership skills
- Gain valuable professional connections
- Generous stipend
- Explore our nation's Capital city

APPLICATIONS DUE APRIL 30, 2023
