

ASME B18.13.1M-2011
[Revision of ASME B18.13.1M-1998 (R2008)]

Screw and Washer Assemblies: SEMS (Metric Series)

AN AMERICAN NATIONAL STANDARD

**The American Society of
Mechanical Engineers**

ASME B18.13.1M-2011
[Revision of ASME B18.13.1M-1998 (R2008)]

Screw and Washer Assemblies: SEMS (Metric Series)

AN AMERICAN NATIONAL STANDARD

**The American Society of
Mechanical Engineers**

Three Park Avenue • New York, NY • 10016 USA

Date of Issuance: October 21, 2011

This Standard will be revised when the Society approves the issuance of a new edition.

ASME issues written replies to inquiries concerning interpretations of technical aspects of this Standard. Periodically certain actions of the ASME B18 Committee may be published as Cases. Cases and interpretations are published on the ASME Web site under the Committee Pages at <http://cstools.asme.org> as they are issued.

ASME is the registered trademark of The American Society of Mechanical Engineers.

This code or standard was developed under procedures accredited as meeting the criteria for American National Standards. The Standards Committee that approved the code or standard was balanced to assure that individuals from competent and concerned interests have had an opportunity to participate. The proposed code or standard was made available for public review and comment that provides an opportunity for additional public input from industry, academia, regulatory agencies, and the public-at-large.

ASME does not “approve,” “rate,” or “endorse” any item, construction, proprietary device, or activity.

ASME does not take any position with respect to the validity of any patent rights asserted in connection with any items mentioned in this document, and does not undertake to insure anyone utilizing a standard against liability for infringement of any applicable letters patent, nor assumes any such liability. Users of a code or standard are expressly advised that determination of the validity of any such patent rights, and the risk of infringement of such rights, is entirely their own responsibility.

Participation by federal agency representative(s) or person(s) affiliated with industry is not to be interpreted as government or industry endorsement of this code or standard.

ASME accepts responsibility for only those interpretations of this document issued in accordance with the established ASME procedures and policies, which precludes the issuance of interpretations by individuals.

No part of this document may be reproduced in any form,
in an electronic retrieval system or otherwise,
without the prior written permission of the publisher.

CONTENTS

Foreword	iv
Committee Roster	vi
Correspondence With the B18 Committee	vii
1 Introduction	1
2 General Data	12
3 Helical Spring Lock Washer SEMS	14
4 Tooth Lock Washer SEMS	15
5 Conical Washer SEMS	15
6 Plain Washer SEMS	15
Figures	
1 Unthreaded Length on Screws With Machine Screw Thread Diameter–Pitch Combinations	12
2 Conical Spring Washer Twist Test	14
3 Unthreaded Length on Tapping Screws With Spaced Thread Diameter–Pitch Combinations	15
Tables	
1 Dimensions of Helical Spring Lock Washers for SEMS With Machine and Tapping Screws Having Machine Screw Thread Diameter–Pitch Combinations	2
2 Dimensions of Helical Spring Lock Washers for SEMS With Screws Having Tapping Screw Thread Diameter–Pitch Combinations	3
3 Dimensions of Internal Tooth Lock Washers for SEMS	4
4 Dimensions of External Tooth Lock Washers for SEMS	5
5 Dimensions of Conical Spring Washers for SEMS	6
6 Dimensions of Plain Washers for SEMS	7
7 Through-Hardened and Tempered SEMS	8
8 Examples of SEMS Product Data	11
Nonmandatory Appendices	
A Reference Information for Users of This Standard	17
B Plain Washers on Tapping Screws	19
C The Relationship of This Revision to Previous Revisions of This Standard and to ISO Standards	20
D Manufacturing	21
E Statistical Expression of Hardness	22
F Recovery Test	23
G How SEMS Function	24
