(Revision of ASME B31P-2017)

Standard Heat Treatments for Piping

ASME Code for Pressure Piping, B31

AN AMERICAN NATIONAL STANDARD

**The American Society of
Mechanical Engineers**

ASME B31P-2023
(Revision of ASME B31P-2017)

Standard Heat Treatments for Piping

ASME Code for Pressure Piping, B31

AN AMERICAN NATIONAL STANDARD

**The American Society of
Mechanical Engineers**

Two Park Avenue • New York, NY • 10016 USA

Date of Issuance: December 15, 2023

The next edition of this Standard is scheduled for publication in 2028.

This code or standard was developed under procedures accredited as meeting the criteria for American National Standards. The standards committee that approved the code or standard was balanced to ensure that individuals from competent and concerned interests had an opportunity to participate. The proposed code or standard was made available for public review and comment, which provided an opportunity for additional public input from industry, academia, regulatory agencies, and the public-at-large.

ASME does not “approve,” “certify,” “rate,” or “endorse” any item, construction, proprietary device, or activity. ASME does not take any position with respect to the validity of any patent rights asserted in connection with any items mentioned in this document, and does not undertake to insure anyone utilizing a standard against liability for infringement of any applicable letters patent, nor does ASME assume any such liability. Users of a code or standard are expressly advised that determination of the validity of any such patent rights, and the risk of infringement of such rights, is entirely their own responsibility.

Participation by federal agency representatives or persons affiliated with industry is not to be interpreted as government or industry endorsement of this code or standard.

ASME accepts responsibility for only those interpretations of this document issued in accordance with the established ASME procedures and policies, which precludes the issuance of interpretations by individuals.

The endnotes and preamble in this document (if any) are part of this American National Standard.

CONTENTS

Foreword	v
Committee Roster	vi
Correspondence With the B31 Committee	viii
Summary of Changes	x
1	Introduction	1
2	Glossary	1
3	Temperature Measurement	2
4	Temperature Control	2
5	Welding Preheat	3
6	Postweld Heat Treatment (PWHT)	4
7	Postforming and Material Heat Treatments	9
8	Alternatives and Exemptions to Preheat and PWHT Requirements	9
 Nonmandatory Appendices		
A	Recommendations for the Proper Use of Thermocouples	10
B	Recommendations for Control of Narrow Temperature Range Heat Treatments: Local Heat-Treatment Methods	11
C	Branch Connection Examples	26
D	Temper Bead Method Alternative to PWHT	28
E	Fracture Mechanics Alternative to PWHT	29
 Figures		
B-3.1-1	Definition of Terms for Local Circumferential Band Heating of Pipe Weld	11
B-3.1-2	Definition of Terms for Local Circumferential Band Heating of Branch Connection to Pipe Attachment Weld	12
B-5.2-1	Location of Thermocouples (Monitoring and Control) for Pipe Sizes Less Than NPS 6 (150 DN) and One Control Zone	15
B-5.2-2	Location of Thermocouples (Monitoring and Control) for Pipe Sizes NPS 6 (DN 150) Up to and Including NPS 12 (DN 300) and Two Control Zones	16
B-5.2-3	Location of Thermocouples (Monitoring and Control) for Pipe Sizes NPS 14 (DN 350) Up to and Including NPS 30 (DN 750) and Four Control Zones	17
B-5.2-4	Location of Monitoring Thermocouples for Branch Nozzle or Attachment Welds	18
B-5.3-1	Example of One Approach When the Heated Band From a Weld Requiring PWHT Intersects a Weld Not Requiring PWHT	20
C-1	Typical Branch Attachment Details That May Be Used to Calculate Control Thickness	26
C-2	Typical Integrally Reinforced Outlet Fitting Branch Connection Details That May Be Used to Calculate Control Thickness	27

Tables

5.1-1	Preheat Temperature	4
6.1.1-1	Postweld Heat Treatment	5
6.1.1-2	Alternate Postweld Heat Treatment Requirements for Carbon and Low-Alloy Steels, P-Nos. 1 and 3	5
6.1.1-3	Exemptions to Mandatory Postweld Heat Treatment	6
6.2-1	Approximate Lower Transformation Temperatures	8
B-5.1-1	Requirements for Control Zones	14

Forms

B-5.6-1	Standard Procedure for Local Heating	22
B-5.6-2	Standard Documentation Checklist for Local Heating	25
