## PART 6: SECTION VIII – RULES FOR CONSTRUCTION OF PRESSURE VESSELS

<b>CHAPTER 21 Section VIII–Division 1: Rules for Construction of Pressure Vessels</b> <i>Urey R. Miller and Thomas P. Pastor</i> . . . . .	21-1
---	------

<b>21.1</b> Introduction	21-1
<b>21.2</b> Section VIII, Division 1, Foreword	21-1
<b>21.3</b> Section VIII, Division 1, Introduction	21-2
<b>21.4</b> Subsection A: General Requirements for All Methods of Construction and All Materials	21-7
<b>21.5</b> Subsection B–Requirements Pertaining to Methods of Fabrication of Pressure Vessels	21-28

<b>21.6</b> Subsection C: Requirements Pertaining to Classes of Materials	21-45
<b>21.7</b> Mandatory Appendices	21-66
<b>21.8</b> NonMandatory Appendices	21-93
<b>21.9</b> References	21-110

<b>CHAPTER 22 Section VIII–Division 2: Alternative Rules</b> <i>David A. Osage, Clay D. Rodery, Thomas P. Pastor, Robert G. Brown, Philip A. Henry, and James C. Sowinski</i> . . . . .	22-1
--	------

<b>22.1</b> Introduction	22-1
<b>22.2</b> Organization of VIII–2	22-2
<b>22.3</b> Part 1 – General Requirements	22-2
<b>22.4</b> Part 2 – Responsibilities and Duties	22-4
<b>22.5</b> Part 3 – Materials Requirements	22-8
<b>22.6</b> Part 4 – Design-By-Rule	22-13
<b>22.7</b> Part 5 – Design-By-Analysis	22-31
<b>22.8</b> Part 6 – Fabrication Requirements	22-40
<b>22.9</b> Part 7 – Inspection and Examination Requirements	22-46
<b>22.10</b> Part 8 – Pressure Testing Requirements	22-55
<b>22.11</b> Part 9 – Pressure Vessel Overpressure Protection	22-56
<b>22.12</b> References	22-58

<b>CHAPTER 23 Section VIII–Division 3: Alternative Rules for Construction of High-Pressure Vessels</b> <i>J. Roberts Sims Jr.</i> . . . . .	23-1
--	------

<b>23.1</b> Introduction	23-1
<b>23.2</b> Foreword and Policy Statements	23-1
<b>23.3</b> Part KG – General Requirements	23-1
<b>23.4</b> Part KM–Material Requirements	23-4
<b>23.5</b> Part KD–Design Requirements	23-6
<b>23.6</b> Part KF–Fabrication Requirements	23-20
<b>23.7</b> Part KR–Pressure-Relief Devices	23-22
<b>23.8</b> Part KE–Examination Requirements	23-23
<b>23.9</b> Part KT–Testing Requirements	23-23
<b>23.10</b> Part KS–Marking, Stamping, Reports, and Records	23-23
<b>23.11</b> Mandatory and Nonmandatory Appendices	23-23
<b>23.12</b> Recommendations for Further Development of Division 3	23-24

**CHAPTER 24 Safety of Personnel Using Quick-Actuating Closures on Pressure Vessels and Associated Litigation Issues**

<i>Roger F. Reedy</i> .....	<b>24-1</b>
<b>24.1</b> Introduction	24-1
<b>24.2</b> Background	24-1
<b>24.3</b> History of the Rules Governing Quick-Actuating Closures	24-2
<b>24.4</b> The Future	24-9
<b>24.5</b> Conclusion	24-9
<b>24.6</b> References	24-10

**PART 7: SECTION IX OF B&PV CODE – WELDING AND BRAZING QUALIFICATIONS**

**CHAPTER 25 Welding and Brazing Qualifications**

<i>Joel G. Feldstein</i> .....	<b>25-1</b>
<b>25.1</b> Introduction	25-1
<b>25.2</b> History of Section IX	25-1
<b>25.3</b> Organization of Section IX	25-1
<b>25.4</b> Welding Processes	25-1
<b>25.5</b> Classification of Materials	25-6
<b>25.6</b> Qualification of Welding Procedures	25-7
<b>25.7</b> Qualification of Welders and Welding Operators	25-16
<b>25.8</b> Impact Tested Weld Procedures	25-21
<b>25.9</b> Testing and Examination Requirements	25-25
<b>25.10</b> Corrosion-Resistant and Hardfacing Overlay	25-31
<b>25.11</b> Brazing	25-36
<b>25.12</b> Future Actions for Section IX's Consideration	25-37

**PART 8: SECTION X OF B&PV CODE**

**CHAPTER 26 Fiber-Reinforced Pressure Vessels and ASME RTP-1 – Reinforced Thermoset Plastic Corrosion-Resistance Equipment**

<i>Peter Conlisk and Bernard F. Shelley</i> .....	<b>26-1</b>
<b>26.1</b> Introduction	26-1
<b>26.2</b> FRP Technology	26-1
<b>26.3</b> Fabrication Methods	26-6
<b>26.4</b> Stress Analysis of FRP Vessels	26-10
<b>26.5</b> Scopes of Section X and RTP-1	26-14
<b>26.6</b> Design Qualifications of Section X and RTP-1 Vessels	26-16
<b>26.7</b> Section X: Example Design Specification	26-20
<b>26.8</b> Section X: Example Design Calculations	26-22
<b>26.9</b> RTP-1: Example 1 Design Specification	26-28
<b>26.10</b> RTP-1: Design Example 2	26-36
<b>26.11</b> Quality Assurance of Section X and RTP-1 Vessels	26-42
<b>26.12</b> References	26-45

**PART 9: SECTION XI OF B&PV CODE – RULES FOR INSERVICE INSPECTION OF NUCLEAR POWER PLANT COMPONENTS**

**CHAPTER 27 Overview of Section XI Stipulations**

<i>Owen Hedden</i> .....	<b>27-1</b>
--------------------------	-------------

<b>27.1</b> Introduction	27-1
<b>27.2</b> Development of Scope and Content of Section XI	27-3
<b>27.3</b> Future Issues	27-21
<b>27.4</b> Applicability of Code Editions and Addenda, and the Use and Content of Code Cases and Interpretations	27-21
<b>27.5</b> Efforts that did not Reach Publications	27-22
<b>27.6</b> Acknowledgments	27-22
<b>27.7</b> References	27-23
<b>27.8</b> Bibliography	27-23
<b>27.9</b> Appendix A: Code Cases	27-24
<b>27.10</b> Appendix B: Interpretations	27-27

**CHAPTER 28 Repair/Replacement Activities for Nuclear Power Plant Items**

<i>Richard E. Gimple and Richard W. Swayne</i> .....	<b>28-1</b>
<b>28.1</b> Introduction	28-1
<b>28.2</b> Background of Repair/Replacement Activity Requirements	28-3
<b>28.3</b> Scope and Applicability of Repair/Replacement Activity Requirements	28-5
<b>28.4</b> Alternative Requirements	28-10
<b>28.5</b> Responsibilities	28-15
<b>28.6</b> Repair/Replacement Program and Plan	28-19
<b>28.7</b> Additional General Requirements	28-22
<b>28.8</b> Requirements for Items Used in a Repair/Replacement Activity	28-26
<b>28.9</b> Design Associated with Repair/Replacement Activities	28-32
<b>28.10</b> Welding, Brazing, Metal Removal, Fabrication and Installation	28-36
<b>28.11</b> Examination and Testing Requirements	28-45
<b>28.12</b> Alternatives to Construction Code Welding	28-53
<b>28.13</b> Plugging and Sleeving of Heat Exchanger Tubing	28-55
<b>28.14</b> Code Cases	28-56
<b>28.15</b> Future Considerations	28-57
<b>28.16</b> References	28-59

**CHAPTER 29 Section XI: Rules for Inservice Inspection and Tests of Nuclear Power Plant Components**

<i>Richard W. Swayne</i> .....	<b>29-1</b>
<b>29.1</b> Introduction	29-1
<b>29.2</b> Preface	29-1
<b>29.3</b> Organization	29-1
<b>29.4</b> Article IWA-1000: Scope and Responsibility	29-2
<b>29.5</b> Article IWA-2000: Examination and Inspection	29-4
<b>29.6</b> IWA-2000: Qualifications of Nondestructive Examination Personnel	29-5
<b>29.7</b> Mandatory Appendix VII: Qualification of Nondestructive Examination Personnel for UT	29-7
<b>29.8</b> IWA 2000: Inspection Program	29-7
<b>29.9</b> IWA 2420: Inspection Plans and Schedules	29-8
<b>29.10</b> IWA 2430: Inspection Intervals	29-8
<b>29.11</b> IWA 2440: Application of Code Cases	29-9
<b>29.12</b> IWA 2500: Extent of Examination	29-10
<b>29.13</b> IWA 2600: Weld Reference System	29-10

<b>29.14</b>	Subsections IWB/IWC/IWD/IWE/IWF/IWL: Requirements for Class 1, 2, 3, MC, and CC Components and Supports	29-10
<b>29.15</b>	Exemptions from the Examination Requirements	29-10
<b>29.16</b>	Class 1, 2, and 3 Components and their Supports Exempt from Examination	29-11
<b>29.17</b>	Class MC Components and Liners of Class Components Exempt from Examination	29-11
<b>29.18</b>	Portions of Reinforced Concrete Containment Vessels and their Posttensioning Systems Exempt from Examination	29-12
<b>29.19</b>	IWF-1300: Component Support Examination Boundaries	29-12
<b>29.20</b>	IWB/IWC/IWD/IWE/IWF-2000: Examination and Inspection	29-12
<b>29.21</b>	Combining Preservice Examinations with Construction Code Shop and Field Examinations	29-12
<b>29.22</b>	IWE-2000: Visual Examination, Personnel Qualification and the Responsible Individual	29-13
<b>29.23</b>	IWE-2000: Visual Examination, Personnel Qualification and the responsible Engineer	29-13
<b>29.24</b>	IWB/IWC/IWD/IWE/IWF/IWL-2400: Inspection Schedule	29-13
<b>29.25</b>	IWL-2400: Inspection Schedule	29-14
<b>29.26</b>	IWB/IWC/IWD/IWE/IWF-2420: Successive Inspections	29-14
<b>29.27</b>	IWB/IWC/IWD/IWE/IWF-2430: Additional Examinations	29-14
<b>29.28</b>	IWB/IWC/IWD/IWE/IWF-2500: Examination and Pressure Test Requirements	29-15
<b>29.29</b>	Unique Aspects of Containment Vessel Examination	29-17
<b>29.30</b>	IWL-2500: Examination Requirements	29-17
<b>29.31</b>	Unique Aspects of the Component Support Examination	29-18
<b>29.32</b>	IWA-5000: System Pressure Tests	29-18
<b>29.33</b>	IWA-5110: Periodic System Pressure Tests	29-19
<b>29.34</b>	IWA-5120: System Pressure Tests for Replacement Activities	29-19
<b>29.35</b>	IWA-5200: System Test Requirements	29-19
<b>29.36</b>	IWA/IWB/IWC/IWD-5220: Test Pressurization Boundaries	29-20
<b>29.37</b>	IWA-5240: Visual Examination	29-20
<b>29.38</b>	IWA-5250: Corrosive Action	29-21
<b>29.39</b>	IWA-5260: Instruments for System Hydrostatic Tests	29-22
<b>29.40</b>	IWA-5300: Test Records	29-22
<b>29.41</b>	IWA-6000: Records and Reports	29-22
<b>29.42</b>	IWA-6300: Retention	29-22
<b>29.43</b>	Risk-Informed Inservice Inspection	29-22
<b>29.44</b>	High-Temperature Gas-Cooled Reactors	29-23

**CHAPTER 30 Section XI Flaw Acceptance Criteria and Evaluation Using Code Procedures**

<i>Russell C. Cipolla</i> . . . . .	<b>30-1</b>
<b>30.1</b>	Introduction 30-1
<b>30.2</b>	Evaluation of Examination Results (IWA-3000) 30-2
<b>30.3</b>	Acceptance of Flaws (IWB-3500) 30-8
<b>30.4</b>	Evaluation of Flaws in Components (IWB-3600) 30-13

<b>30.5</b>	Evaluation of Flaws in Reactor Head Penetrations Components (IWB-3660)	30-20
<b>30.6</b>	Evaluation of Flaws in Piping (IWB-3640)	30-23
<b>30.7</b>	Evaluation of Pipe Wall Thinning	30-30
<b>30.8</b>	Temporary Acceptance of Flaws	30-35
<b>30.9</b>	Evaluation of Plant Operating Events (IWB-3700)	30-42
<b>30.10</b>	Evaluation of Class 2, 3, MC, and NF Components	30-55
<b>30.11</b>	Recent and Future Developments in Flaw Evaluation	30-56
<b>30.12</b>	References	30-58

**CHAPTER 31 IWE and IWL**

<i>Jim E. Staffiera</i> . . . . .	<b>31-1</b>
<b>31.1</b>	Introduction 31-1
<b>31.2</b>	Regulatory Requirements for Containments 31-5
<b>31.3</b>	ASME Code Requirements for Containments 31-6
<b>31.4</b>	General Requirements 31-8
<b>31.5</b>	Requirements for Metal (Class MC) Containments 31-8
<b>31.6</b>	Requirements for Concrete (Class CC) Containments 31-8
<b>31.7</b>	Later Code Editions and Addenda 31-8
<b>31.8</b>	Code Cases and Interpretations 31-8
<b>31.9</b>	Advance Nuclear Power Plant Designs 31-9
<b>31.10</b>	References 31-9

**CHAPTER 32 Fatigue Crack Growth, Fatigue and Stress Corrosion Crack Growth: Section XI Evaluation**

<i>Warren H. Bamford</i> . . . . .	<b>32-1</b>
<b>32.1</b>	Fatigue Crack Growth Analyses 32-1
<b>32.2</b>	Stress Corrosion Crack Growth 32-13
<b>32.3</b>	Operating Plant Fatigue Assessment: Section XI, Appendix L 32-27
<b>32.4</b>	References 32-30

**CHAPTER 33 Applications of Elastic-Plastic Fracture Mechanics in Section XI, ASME Code Evaluations**

<i>Hardayal S. Mehta</i> . . . . .	<b>33-1</b>
<b>33.1</b>	Introduction 33-1
<b>33.2</b>	Early Progress in the Development of EPFM 33-1
<b>33.3</b>	Engineering Approach to EPFM and Piping Applications 33-2
<b>33.4</b>	Application to RPV Evaluation 33-9
<b>33.5</b>	References 33-21

**PART 10: SECTION XII OF B&PV CODE**

**CHAPTER 34 Description of Rules of Section XII Transport Tank Code**

<i>Mahendra D. Rana and Stanley Staniszewski</i> . . . . .	<b>34-1</b>
<b>34.1</b>	Introduction 34-1
<b>34.2</b>	Rules on General Requirements, Pressure, Relief Devices, Stamping, Marking Certification, Reports and Records 34-2

<b>34.3</b>	Rules for Materials and Design	34-3
<b>34.4</b>	Rules on Fabrication and Inspection	34-8
<b>34.5</b>	Additional Rules in Modal Appendix I on Categories 406, 407, 412, 331 and 338 Cargo Tanks	34-11
<b>34.6</b>	New Appendix on Rules on Cold Stretched Vessels	34-14
<b>34.7</b>	Conclusions	34-15
<b>34.8</b>	Acknowledgment	34-15
<b>34.9</b>	References	34-15

## PART 11: ASME B31 CODES

### CHAPTER 35 ASME Piping Code: B31.1, Power Piping

*Jimmy E. Meyer and Joe Frey* . . . . . **35-1**

<b>35.1</b>	Introduction	35-1
<b>35.2</b>	Scope and Definitions	35-2
<b>35.3</b>	Design	35-2
<b>35.4</b>	Materials	35-10
<b>35.5</b>	Dimensional Requirements	35-10
<b>35.6</b>	Fabrication, Assembly and Erection	35-10
<b>35.7</b>	Inspection, Examination, and Testing	35-18
<b>35.8</b>	Operations and Maintenance	35-19
<b>35.9</b>	Appendices in the Code	35-19
<b>35.10</b>	References	35-22

### CHAPTER 36 ASME Piping Code: B31.3, Process, B31.5 Refrigeration, B31.9 Building Services and ASME Standards for Piping: B31E Seismic Design, B31J Stress I-Factors, B31T Toughness Requirements

*Jimmy E. Meyer* . . . . . **36-1**

<b>36.1</b>	Coverage	36-1
<b>36.2</b>	References	36-26

### CHAPTER 37 Transportation Pipelines, Including ASME B31.4, B31.8, B31.8S, B31.11, B31G, and B31Q Codes

*Michael J. Rosenfeld* . . . . . **37-1**

<b>37.1</b>	Introduction	37-1
<b>37.2</b>	ASME B31.4 "Transportation Systems for Liquid Hydrocarbons and other Liquids"	37-3
<b>37.3</b>	ASME B31.8 "Gas Transmission and Distribution Piping Systems"	37-16
<b>37.4</b>	ASME B31.8S "Managing System Integrity of Gas Pipelines", Supplement to B31.8	37-33
<b>37.5</b>	ASME B31.11 "Slurry Transportation Piping Systems"	37-37
<b>37.6</b>	ASME B31G "Manual for Determining the Remaining Strength of Corroded Pipelines"	37-38
<b>37.7</b>	ASME B31Q "Pipeline Personnel Qualification"	37-41
<b>37.8</b>	Acknowledgements	37-43
<b>37.9</b>	References	37-43

### CHAPTER 38 Hydrogen Piping and Pipe Lines

*Louis E. Hayden* . . . . . **38-1**

<b>38.1</b>	Background and General Information	38-1
<b>38.2</b>	Organization of B31.12	38-3
<b>38.3</b>	Part GR-General Requirements	38-3
<b>38.4</b>	Part GR; Materials	38-4
<b>38.5</b>	GR-3 Welding, Brazing, Heat Treating, Forming, and Testing	38-4
<b>38.6</b>	GR-4 Inspection, Examination and Testing	38-4
<b>38.7</b>	GR-5 Operation and Maintenance	38-4
<b>38.8</b>	GR-6 Quality System Program for Hydrogen Piping and Pipeline Systems	38-9
<b>38.9</b>	Part IP-2 Design Conditions and Criteria	38-9
<b>38.10</b>	IP-3 Pressure Design of Piping Components	38-10
<b>38.11</b>	IP-7 Specific Piping Systems	38-13
<b>38.12</b>	IP-8.1 Dimensional Requirements	38-14
<b>38.13</b>	IP-8.2 Ratings of Components	38-14
<b>38.14</b>	IP10 Inspection, Examination, and Testing	38-14
<b>38.15</b>	PL Pipelines	38-14
<b>38.16</b>	Chapter PL-2 Pipeline Systems Components and Fabrication Details	38-17
<b>38.17</b>	Mandatory Appendix III Safeguarding	38-27
<b>38.18</b>	References	38-28
