# Thermowells

---

**Performance Test Codes**

**AN AMERICAN NATIONAL STANDARD**

**The American Society of  
Mechanical Engineers**

Two Park Avenue • New York, NY • 10016 USA

Date of Issuance: February 26, 2016

This Code will be revised when the Society approves the issuance of a new edition.

ASME issues written replies to inquiries concerning interpretations of technical aspects of this Code. Interpretations are published on the Committee Web page and under [go.asme.org/InterpsDatabase](http://go.asme.org/InterpsDatabase). Periodically certain actions of the ASME PTC Committee may be published as Cases. Cases are published on the ASME Web site under the PTC Committee Page at [go.asme.org/PTCcommittee](http://go.asme.org/PTCcommittee) as they are issued.

Errata to codes and standards may be posted on the ASME Web site under the Committee Pages to provide corrections to incorrectly published items, or to correct typographical or grammatical errors in codes and standards. Such errata shall be used on the date posted.

The PTC Committee Page can be found at [go.asme.org/PTCcommittee](http://go.asme.org/PTCcommittee). There is an option available to automatically receive an e-mail notification when errata are posted to a particular code or standard. This option can be found on the appropriate Committee Page after selecting “Errata” in the “Publication Information” section.

ASME is the registered trademark of The American Society of Mechanical Engineers.

This code or standard was developed under procedures accredited as meeting the criteria for American National Standards. The Standards Committee that approved the code or standard was balanced to assure that individuals from competent and concerned interests have had an opportunity to participate. The proposed code or standard was made available for public review and comment that provides an opportunity for additional public input from industry, academia, regulatory agencies, and the public-at-large.

ASME does not “approve,” “rate,” or “endorse” any item, construction, proprietary device, or activity.

ASME does not take any position with respect to the validity of any patent rights asserted in connection with any items mentioned in this document, and does not undertake to insure anyone utilizing a standard against liability for infringement of any applicable letters patent, nor assumes any such liability. Users of a code or standard are expressly advised that determination of the validity of any such patent rights, and the risk of infringement of such rights, is entirely their own responsibility.

Participation by federal agency representative(s) or person(s) affiliated with industry is not to be interpreted as government or industry endorsement of this code or standard.

ASME accepts responsibility for only those interpretations of this document issued in accordance with the established ASME procedures and policies, which precludes the issuance of interpretations by individuals.

No part of this document may be reproduced in any form,  
in an electronic retrieval system or otherwise,  
without the prior written permission of the publisher.

# CONTENTS

Foreword .....	v
Committee Roster .....	vi
Correspondence With the PTC Committee .....	vii
<b>Section 1 Object and Scope</b> .....	<b>1</b>
1-1 Object .....	1
1-2 Scope .....	1
<b>Section 2 Nomenclature</b> .....	<b>2</b>
<b>Section 3 Jurisdiction of Codes</b> .....	<b>4</b>
3-1 Reference Standards and Governing Codes .....	4
3-2 Specification of Thermowells .....	4
<b>Section 4 Dimensions</b> .....	<b>5</b>
4-1 Configurations .....	5
4-2 Dimensional Limits .....	5
<b>Section 5 Materials</b> .....	<b>10</b>
5-1 General Considerations .....	10
<b>Section 6 Stress Equations</b> .....	<b>11</b>
6-1 General Considerations .....	11
6-2 Corrosion and Erosion .....	11
6-3 Flow-Induced Thermowell Stresses .....	12
6-4 Strouhal Number, Drag Coefficients, and Lift Coefficient .....	14
6-5 Natural Frequency of Thermowells .....	15
6-6 Mounting Compliance Factor .....	17
6-7 Unsupported Length, Diameter, and Fillet Radius .....	19
6-8 Frequency Limit .....	20
6-9 Magnification Factor .....	23
6-10 Bending Stresses .....	24
6-11 Pressure and Shear Stresses .....	28
6-12 Steady-State Static and Dynamic Stress Limits .....	29
6-13 Pressure Limit .....	31
<b>Section 7 Overview of Calculations</b> .....	<b>32</b>
7-1 Quantitative Criteria .....	32
7-2 Fluid Properties .....	32
7-3 Fluid Velocity .....	32
7-4 Material Properties and Dimensions .....	32
7-5 Reynolds and Strouhal Numbers .....	33
7-6 Natural Frequency at Operation Temperature .....	33
7-7 Natural Frequency at Expected Mode of Operation .....	33
7-8 Steady-State and Dynamic Stresses .....	33
7-9 Allowable Fatigue Limits .....	33
7-10 Pressure Rating .....	33
<b>Section 8 Examples</b> .....	<b>34</b>
8-1 Tapered, Welded Thermowell for a Steam-Header Application (U.S. Customary Units) .....	34
8-2 Step-Shank, Threaded Thermowell for a Hot Water Application (SI Units) .....	39

<b>Section 9</b>	<b>Statement of Compliance</b> .....	46
9-1	Specification of a Thermowell .....	46
9-2	Velocity and Pressure Ratings .....	46
<b>Section 10</b>	<b>References</b> .....	47
10-1	Referenced Documents .....	47
10-2	Referenced ASME Documents .....	47
<b>Figures</b>		
4-1-1	Schematic Diagram of a Thermowell .....	6
4-1-2	Examples of Straight-Shank Thermowells .....	7
4-1-3	Examples of Step-Shank Thermowells .....	8
4-1-4	Examples of Tapered Thermowells .....	9
6-3.1-1	Fluid-Induced Forces and Assignment of Axes for Calculation of Thermowell Stresses .....	12
6-6-1	Unsupported Length of Thermowells .....	18
6-8.1-1	Schematic Indicating Excitation of Resonances When Excitation Frequency Coincides With the Thermowell Natural Frequency .....	20
6-8.1-2	Schematic Showing the Amplitude Response of a Thermowell Subjected to Fluid-Induced Forces as Solid Lines, for In-Line and Transverse Excitation Modes .....	21
6-10.1-1	Bending Moment, Stress at the Support Plane, and Locations of Maximum Steady-State or Oscillating In-Line Stress .....	25
6-10.7-1	Mounting of a Thermowell in an Elbow, With the Tip Facing Downstream .....	27
6-10.7-2	Geometry to Be Used in Calculation of Thermowell Ratings .....	27
6-10.7-3	Mounting of a Thermowell in an Elbow, With the Tip Facing Upstream ....	28
<b>Tables</b>		
4-1-1	Dimensional Limits for Straight and Tapered Thermowells Within the Scope of This Standard .....	7
4-2-1	Dimensional Limits for Step-Shank Thermowells Within the Scope of This Standard .....	8
6-5.3-1	Parameters for Natural Frequency Calculation for Step-Shank Thermowells .....	16
6-12.3-1	Allowable Fatigue-Stress Amplitude Limits for Material Class A and Class B .....	30
<b>Nonmandatory Appendix</b>		
A	Conversion Factors .....	49
