

## ASME Pipeline Systems Division Newsletter - April 2025

### Letter from your Pipeline Systems Division Chair:

Dear Members of the ASME Pipeline Systems Division,

I'd like to introduce myself as the chair of the [ASME Pipeline Systems Division Executive Committee](#) for the 2024-2025 Fiscal Year. My name is Bose Babu Nallapaneni, and I am excited to restart this newsletter to share with you the latest updates and initiatives that our division is undertaking.

It is a challenge to connect with all our members and one of the action items to do better is to re-establish this newsletter. With this newsletter, we hope to provide opportunities for you to get to know our leadership team, keep you informed about our group activities as well as industry community events.

*In this issue, we will provide some updates from our industry associations and partners and ask you for your [feedback](#) on how our committee can better serve you!*

Thank you for your continued support and dedication to the ASME Pipeline Systems Division. Together, we can achieve great things.

Best regards,

*Bose Babu*

*Bose Babu, ASME Pipeline Systems Division Executive Committee Chair FY2024/25*
