# ***Legal Notice for Harmonized Standard Jointly Developed by ASME and CSA Group***

## **Intellectual property rights and ownership**

As between American Society of Mechanical Engineers (“ASME”) and Canadian Standards Association (Operating as “CSA Group”) (collectively “ASME and CSA Group”) and the users of this document (whether it be in printed or electronic form), ASME and CSA Group are the joint owners of all works contained herein that are protected by copyright, all trade-marks (except as otherwise noted to the contrary), and all inventions and trade secrets that may be contained in this document, whether or not such inventions and trade secrets are protected by patents and applications for patents. The unauthorized use, modification, copying, or disclosure of this document may violate laws that protect the intellectual property of ASME and CSA Group and may give rise to a right in ASME and CSA Group to seek legal redress for such use, modification, copying, or disclosure. ASME and CSA Group reserve all intellectual property rights in this document.

## **Disclaimer and exclusion of liability**

This document is provided without any representations, warranties, or conditions of any kind, express or implied, including, without limitation, implied warranties or conditions concerning this document’s fitness for a particular purpose or use, its merchantability, or its non-infringement of any third party’s intellectual property rights. ASME and CSA Group do not warrant the accuracy, completeness, or currency of any of the information published in this document. ASME and CSA Group make no representations or warranties regarding this document’s compliance with any applicable statute, rule, or regulation.

IN NO EVENT SHALL ASME AND CSA GROUP, THEIR RESPECTIVE VOLUNTEERS, MEMBERS, SUBSIDIARIES, OR AFFILIATED COMPANIES, OR THEIR EMPLOYEES, DIRECTORS, OR OFFICERS, BE LIABLE FOR ANY DIRECT, INDIRECT, OR INCIDENTAL DAMAGES, INJURY, LOSS, COSTS, OR EXPENSES, HOWSOEVER CAUSED, INCLUDING BUT NOT LIMITED TO SPECIAL OR CONSEQUENTIAL DAMAGES, LOST REVENUE, BUSINESS INTERRUPTION, LOST OR DAMAGED DATA, OR ANY OTHER COMMERCIAL OR ECONOMIC LOSS, WHETHER BASED IN CONTRACT, TORT (INCLUDING NEGLIGENCE), OR ANY OTHER THEORY OF LIABILITY, ARISING OUT OF OR RESULTING FROM ACCESS TO OR POSSESSION OR USE OF THIS DOCUMENT, EVEN IF ASME OR CSA GROUP HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, INJURY, LOSS, COSTS, OR EXPENSES.

In publishing and making this document available, ASME and CSA Group are not undertaking to render professional or other services for or on behalf of any person or entity or to perform any duty owed by any person or entity to another person or entity. The information in this document is directed to those who have the appropriate degree of experience to use and apply its contents, and ASME and CSA Group accept no responsibility whatsoever arising in any way from any and all use of or reliance on the information contained in this document.

ASME and CSA Group have no power, nor do they undertake, to enforce compliance with the contents of the standards or other documents they jointly publish.

## **Authorized use of this document**

This document is being provided by ASME and CSA Group for informational and non-commercial use only. The user of this document is authorized to do only the following:

If this document is in electronic form:

- load this document onto a computer for the sole purpose of reviewing it;
- search and browse this document; and
- print this document if it is in PDF format.

Limited copies of this document in print or paper form may be distributed only to persons who are authorized by ASME and CSA Group to have such copies, and only if this Legal Notice appears on each such copy.

In addition, users may not and may not permit others to

- alter this document in any way or remove this Legal Notice from the attached standard;
- sell this document without authorization from ASME and CSA Group; or
- make an electronic copy of this document.

If you do not agree with any of the terms and conditions contained in this Legal Notice, you may not load or use this document or make any copies of the contents hereof, and if you do make such copies, you are required to destroy them immediately. Use of this document constitutes your acceptance of the terms and conditions of this Legal Notice.

**Canadian Standards Association (operating as “CSA Group”)**, under whose auspices this National Standard has been produced, was chartered in 1919 and accredited by the Standards Council of Canada to the National Standards system in 1973. It is a not-for-profit, nonstatutory, voluntary membership association engaged in standards development and certification activities.

CSA Group standards reflect a national consensus of producers and users — including manufacturers, consumers, retailers, unions and professional organizations, and governmental agencies. The standards are used widely by industry and commerce and often adopted by municipal, provincial, and federal governments in their regulations, particularly in the fields of health, safety, building and construction, and the environment.

More than 10 000 members indicate their support for CSA Group’s standards development by volunteering their time and skills to Committee work.

CSA Group offers certification and testing services in support of and as an extension to its standards development activities. To ensure the integrity of its certification process, CSA Group regularly and continually audits and inspects products that bear the CSA Group Mark.

In addition to its head office and laboratory complex in Toronto, CSA Group has regional branch offices in major centres across Canada and inspection and testing agencies in fourteen countries. Since 1919, CSA Group has developed the necessary expertise to meet its corporate mission: CSA Group is an independent service organization whose mission is to provide an open and effective forum for activities facilitating the exchange of goods and services through the use of standards, certification and related services to meet national and international needs.

For further information on CSA Group services, write to  
CSA Group  
178 Rexdale Boulevard  
Toronto, Ontario, M9W 1R3  
Canada

A National Standard of Canada is a standard developed by a Standards Council of Canada (SCC) accredited Standards Development Organization, in compliance with requirements and guidance set out by SCC. More information on National Standards of Canada can be found at [www.scc.ca](http://www.scc.ca).

SCC is a Crown corporation within the portfolio of Innovation, Science and Economic Development (ISED) Canada. With the goal of enhancing Canada's economic competitiveness and social well-being, SCC leads and facilitates the development and use of national and international standards. SCC also coordinates Canadian participation in standards development, and identifies strategies to advance Canadian standardization efforts.

Accreditation services are provided by SCC to various customers, including product certifiers, testing laboratories, and standards development organizations. A list of SCC programs and accredited bodies is publicly available at [www.scc.ca](http://www.scc.ca).

## American National Standards Institute

The American National Standards Institute (ANSI), Inc. is the nationally recognized coordinator of voluntary standards development in the United States through which voluntary organizations, representing virtually every technical discipline and every facet of trade and commerce, organized labor and consumer interests, establish and improve the some 10 000 national consensus standards currently approved as American National Standards.

ANSI provides that the interests of the public may have appropriate participation and representation in standardization activity, and cooperates with departments and agencies of U.S. Federal, state and local governments in achieving compatibility between government codes and standards and the voluntary standards of industry and commerce.

ANSI represents the interests of the United States in international nontreaty organizations such as the International Organization for Standardization (ISO) and the International Electrotechnical Commission (IEC). The Institute maintains close ties with regional organizations such as the Pacific Area Standards Congress (PASC) and the Pan American Standards Commission (COPANT). As such, ANSI coordinates the activities involved in the U.S. participation in these groups.

ANSI approval of standards is intended to verify that the principles of openness and due process have been followed in the approval procedure and that a consensus of those directly and materially affected by the standards has been achieved. ANSI coordination is intended to assist the voluntary system to ensure that national standards needs are identified and met with a set of standards that are without conflict or unnecessary duplication in their requirements.

Responsibility of approving American standards rests with the  
American National Standards Institute, Inc.

ASME A112.6.4 Project Team on Roof Drains 8

CSA Technical Committee on Drains and Interceptors 10

ASME/CSA Harmonization Task Group on Drains 14

Preface 16

## 1 Scope 18

- 1.1 Inclusions 18
- 1.2 Exclusions 18
- 1.3 Illustrations 18
- 1.4 Terminology 18
- 1.5 Units of measure 18
- 1.6 Alternatives 18

## 2 Reference publications 19

## 3 Definitions and abbreviations 22

- 3.1 Definitions 22
- 3.2 Abbreviations 23

## 4 General 23

- 4.1 General purpose roof drains 23
  - 4.1.1 Primary 23
  - 4.1.2 General purpose roof drain with overflow and flashing flange 23
  - 4.1.3 General purpose roof drain with integral overflow 23
- 4.2 Gutter or cornice roof drain 23
- 4.3 Parapet roof drain 24
  - 4.3.1 Overview 24
  - 4.3.2 Parapet roof drain with flashing flange 24
  - 4.3.3 Parapet roof drain with overflow 24
- 4.4 Promenade or deck roof drain 24

## 5 Materials 24

- 5.1 General 24
- 5.2 Metals 24
  - 5.2.1 Aluminum 24
  - 5.2.2 Bronze 24
  - 5.2.3 Cast iron 24
  - 5.2.4 Ductile iron 24
  - 5.2.5 Nickel-bronze 24
  - 5.2.6 Stainless steel 25
  - 5.2.7 Copper sheet 25
  - 5.2.8 Sheet steel used in paint grip drain bodies 25

5.3	Polymeric compounds	25
5.3.1	Acrylonitrile-butadiene-styrene (ABS)	25
5.3.2	Polyethylene (PE)	25
5.3.3	Polypropylene (PP)	25
5.3.4	Polyvinylchloride (PVC)	25
5.3.5	Polyvinylidene fluoride (PVDF)	25
5.3.6	Nylon	25
5.4	Steel fasteners	25
5.5	Finishes	26
5.5.1	General	26
5.5.2	Non-organic finishes	26
5.5.3	Organic finishes	26
<b>6</b>	<b>Accessories</b>	<b>27</b>
6.1	General	27
6.2	Extension collar	27
6.3	Under-deck clamp	27
6.4	Expansion joint	27
6.5	Drain body or sump receiver plate	27
<b>7</b>	<b>Design requirements</b>	<b>27</b>
7.1	Outlet centrelines	27
7.2	Outlet connections	27
7.2.1	General	27
7.2.2	Threaded outlet connections	27
7.2.3	Inside caulk outlet connections	27
7.2.4	Hub (push-on) outlet connections	27
7.2.5	Spigot (no hub or mechanical joint) outlet connections	28
7.2.6	Solvent-cemented outlet connections	28
7.2.7	O-ring, gasketed, and rubber coupling outlet connections	28
7.2.8	Butt welded outlet connections	28
7.3	Drain body sump thickness	28
7.4	Dimensions	28
7.4.1	Dome or grate open area	28
7.4.2	Overflow size	28
<b>8</b>	<b>Loading test — Loading classifications</b>	<b>28</b>
<b>9</b>	<b>Weathering test</b>	<b>29</b>
9.1	Test specimens	29
9.2	Test procedure	29
9.3	Pass/fail criteria	29
