

# TABLE OF CONTENTS

<b>Preface</b>	<b>ix</b>
<b>Special Acknowledgments</b>	<b>xi</b>
<b>Acknowledgments</b>	<b>xiii</b>
<b>Permission Acknowledgments</b>	<b>xv</b>
<b>Forewords</b>	<b>xvii</b>
<b>Metric Conversion Of Some Common Units</b>	<b>xxi</b>
<hr/>	
<b>Chapter 1 Overview and Challenges of CO<sub>2</sub> Transportation</b>	<b>1</b>
1.1 Introduction	1
1.2 CO <sub>2</sub> Science	5
1.3 CO <sub>2</sub> and Climate Change	9
1.4 CO <sub>2</sub> Sources, Uses, and Safety Issues	13
1.5 Impure CO <sub>2</sub> Capture Technologies	16
1.6 CO <sub>2</sub> Sequestration	20
1.7 CO <sub>2</sub> Transportation	25
1.8 Pipeline Technology For Transportation of CO <sub>2</sub> With Impurities	29
1.9 CO <sub>2</sub> Properties and Phase Diagram	37
References	43
<hr/>	
<b>Chapter 2 Carbon Capture, Transport and Storage — A Background</b>	<b>47</b>
2.1 Carbon Capture and Storage	47
2.2 Basic Properties of CO <sub>2</sub>	47
2.3 CO <sub>2</sub> Capture Technology	50
2.4 Carbon Dioxide Sinks	56
2.5 Pipeline Transportation Significance	64
2.6 CO <sub>2</sub> Transportation for CCS — A Background	67
References	68
<hr/>	
<b>Chapter 3 Anthropogenic CO<sub>2</sub> Properties</b>	<b>73</b>
3.1 Anthropogenic CO <sub>2</sub> Composition	73
3.2 CO <sub>2</sub> Quality Scenarios for Currently Operating CO <sub>2</sub> Pipelines	74
	v

3.3 Projected CO <sub>2</sub> Purity Specifications for the Different Capture Technologies	75
3.4 Projected CO <sub>2</sub> Pipeline Specifications Scenario for CCS Transport	77
3.5 Water Content in Currently Operational CO <sub>2</sub> Pipelines	79
3.6 Anthropogenic CO <sub>2</sub> for CCS	84
3.7 Concluding Remarks	84
References	85
<b>Chapter 4 Overview of EOS Applicable to CO<sub>2</sub> With Impurities</b>	<b>87</b>
4.1 Overview of EOS Applicable to CO <sub>2</sub> With Impurities	87
4.2 Physical Properties — Equations of State	87
4.3 Overview of the Physical Property Models	89
4.4 Equations of State (EOS)	90
4.5 Evaluation of EOS for Anthropogenic CO <sub>2</sub> Mixtures	95
4.6 Effect of Impurities on the Phase Properties of CO <sub>2</sub>	99
4.7 Operating Envelopes of a CO <sub>2</sub> Pipeline	103
4.8 Phase Behavior of Anthropogenic CO <sub>2</sub> Quality Scenarios for CCS	103
4.9 CO <sub>2</sub> Water Content Specifications	106
4.10 Phase Behavior of Anthropogenic CO <sub>2</sub>	109
4.11 Effect of Impurities on CO <sub>2</sub> Storage, Enhanced Oil and Gas Recovery	110
References	112
<b>Chapter 5 Pipeline Transportation of CO<sub>2</sub></b>	<b>117</b>
5.1 Establishing Design Parameters	117
5.2 Establishing CO <sub>2</sub> Pipeline Pressure	119
5.3 CO <sub>2</sub> Product Quality for Pipeline Transportation	130
5.4 Other Design Parameters	136
5.5 Typical Pipeline Systems Design	140
5.6 Measurement Facilities Layout	143
5.7 Pipeline Valves and Blow-downs	144
5.8 Pipeline Controls	145
5.9 Piping and Components Materials	147
5.10 Codes/Standards and Regulations	148
5.11 Pipeline Routing	151
References	152
<b>Chapter 6 Characteristics of Decompression Wave Speed in CO<sub>2</sub> Containing Impurities</b>	<b>155</b>
6.1 Introduction	155
6.2 Background	156
6.3 Description of Cases Involving CO <sub>2</sub> Containing Impurities	158
6.4 Decompression Wave Speed in Pure CO <sub>2</sub>	158
6.5 Decompression Wave Speed in CO <sub>2</sub> +N <sub>2</sub> Binaries	166

6.6 Decompression Wave Speed in CO <sub>2</sub> +O <sub>2</sub> Binaries	169
6.7 Decompression Wave Speed in CO <sub>2</sub> +CH <sub>4</sub> Binaries	173
6.8 Decompression Wave Speed in CO <sub>2</sub> +H <sub>2</sub> Binaries	177
6.9 Decompression Wave Speed in CO <sub>2</sub> +CO Binaries	180
6.10 Decompression Wave Speed in CO <sub>2</sub> +Ar Binaries	184
6.11 Decompression Wave Speed in CO <sub>2</sub> +H <sub>2</sub> S Binaries	188
6.12 Implications Relative to Fracture Toughness Requirements for CO <sub>2</sub> Pipelines	191
6.13 Experimental Determination of Decompression Wave Speed	193
6.14 Example of Shock Tube Test Results for a Rich Natural Gas Mixture	200
6.15 Suggestions for Future Work	204
6.16 Closing Remarks	205
References	205
<b>Chapter 7 Pipe Material Selection and Fracture Control</b>	<b>209</b>
7.1 General Introduction	209
7.2 Fracture Control	210
7.2.1 Background	210
7.2.2 Prevention of Brittle Fracture	210
7.2.3 Fracture Initiation Resistance	211
7.2.4 Fracture Propagation Control	214
7.2.5 Fracture Propagation Control in Gaseous Phase CO <sub>2</sub> Pipelines	227
7.2.6 Crack Arrestors	229
References	233
<b>Chapter 8 CO<sub>2</sub> Pipeline System Development and Design</b>	<b>237</b>
8.1 Introduction	237
8.2 Codes and Standards	239
8.3 Design Requirements	241
8.4 Route Selection	245
8.5 Pipeline Capacity and Flow Assurance	246
8.6 Pipeline Transient Considerations	258
8.7 SCADA and Simulation Tools	267
References	267
<b>Chapter 9 Pumping, Compression and Other Appurtenances</b>	<b>273</b>
9.1 Introduction	273
9.2 Thermodynamics of CO <sub>2</sub> Compression in Different Phases	273
9.3 Initial Compression of CO <sub>2</sub> Before Introduction to Pipeline	278
9.4 Pipeline Compression and Pumping Systems	283
9.5 Flow Metering	296
9.6 Valves and Other Appurtenances	299
References	300

<b>Chapter 10 CO<sub>2</sub> Pipeline Operation and Maintenance</b>	<b>305</b>
10.1 General Operational Issues	305
10.2 CO <sub>2</sub> Pipeline System Operational Requirements	307
10.3 Salient Operational and Maintenance Requirements	323
10.4 CO <sub>2</sub> Pipeline Maintenance	325
10.5 CO <sub>2</sub> Pipeline Leak Detection/Blowdown	329
10.6 Pipeline Commissioning and Startup	333
References	340
<b>Chapter 11 Risk Assessment and Integrity Management</b>	<b>343</b>
11.1 Hazard and Risk	343
11.2 Pipeline Risk Assessment	345
11.3 Risk Assessment Methods for Pipeline Transmission Systems	347
11.4 CO <sub>2</sub> Pipeline Failure Frequency Calculation Based on Statistical Data	359
11.5 Use of Risk Assessment in Pipeline Maintenance Planning	361
11.6 Pipeline Risk Management	362
11.7 Integrity Management of CO <sub>2</sub> Pipelines	364
References	368
APPENDIX to Chapter 11 An Example of Industry Indexing Numbers (Based on Large Pipeline Network)	370
<b>Chapter 12 Atmospheric Dispersion of CO<sub>2</sub> Containing Impurities</b>	<b>375</b>
12.1 CO <sub>2</sub> Emissions Risk	375
12.2 Atmospheric Dispersion	377
12.3 Release Dynamics	378
12.4 Modeling Tools	383
12.5 CO <sub>2</sub> Pipeline Blowdown Modeling	388
12.6 CO <sub>2</sub> Pipeline Rupture Modeling	397
References	402
<b>Chapter 13 Health and Safety and Emergency Response</b>	<b>405</b>
13.1 Health and Safety	405
13.2 Pipeline Safety Issues	407
13.3 Special Hazard Consideration for Pipelines Transporting Supercritical CO <sub>2</sub> Containing Impurities	412
13.4 CO <sub>2</sub> Pipeline Emergencies	417
13.5 Emergency Response Planning	424
References	430
APPENDIX to Chapter 13 Abbreviations and Glossary of Terms/Definitions	432
<b>Index</b>	<b>441</b>
