# **700 Class Chains, Attachments, and Sprocket Teeth for Water and Sewage Treatment Plants**

---

**AN AMERICAN NATIONAL STANDARD**

**The American Society of  
Mechanical Engineers**

Two Park Avenue • New York, NY • 10016 USA

Date of Issuance: January 15, 2014

This Standard will be revised when the Society approves the issuance of a new edition.

ASME issues written replies to inquiries concerning interpretations of technical aspects of this Standard. Periodically certain actions of the ASME B29 Committee may be published as Cases. Cases and interpretations are published on the ASME Web site under the Committee Pages at <http://cstools.asme.org/> as they are issued.

Errata to codes and standards may be posted on the ASME Web site under the Committee Pages to provide corrections to incorrectly published items, or to correct typographical or grammatical errors in codes and standards. Such errata shall be used on the date posted.

The Committee Pages can be found at <http://cstools.asme.org/>. There is an option available to automatically receive an e-mail notification when errata are posted to a particular code or standard. This option can be found on the appropriate Committee Page after selecting “Errata” in the “Publication Information” section.

ASME is the registered trademark of The American Society of Mechanical Engineers.

This code or standard was developed under procedures accredited as meeting the criteria for American National Standards. The Standards Committee that approved the code or standard was balanced to assure that individuals from competent and concerned interests have had an opportunity to participate. The proposed code or standard was made available for public review and comment that provides an opportunity for additional public input from industry, academia, regulatory agencies, and the public-at-large.

ASME does not “approve,” “rate,” or “endorse” any item, construction, proprietary device, or activity.

ASME does not take any position with respect to the validity of any patent rights asserted in connection with any items mentioned in this document, and does not undertake to insure anyone utilizing a standard against liability for infringement of any applicable letters patent, nor assumes any such liability. Users of a code or standard are expressly advised that determination of the validity of any such patent rights, and the risk of infringement of such rights, is entirely their own responsibility.

Participation by federal agency representative(s) or person(s) affiliated with industry is not to be interpreted as government or industry endorsement of this code or standard.

ASME accepts responsibility for only those interpretations of this document issued in accordance with the established ASME procedures and policies, which precludes the issuance of interpretations by individuals.

No part of this document may be reproduced in any form,  
in an electronic retrieval system or otherwise,  
without the prior written permission of the publisher.

# CONTENTS

Foreword .....	iv
Committee Roster .....	v
Correspondence With the B29 Committee .....	vi
<b>1 Nomenclature</b> .....	<b>1</b>
<b>2 Definitions</b> .....	<b>2</b>
<b>Figures</b>	
1 Cast Iron Chain With Chain Saver .....	4
2 Cast Iron Chain Without Chain Saver .....	4
3 Welded Steel Chain With Chain Saver .....	4
4 Welded Steel Chain Without Chain Saver .....	4
5 Stainless Steel Chain With Chain Saver .....	4
6 Nonmetallic Chain With Chain Saver .....	4
7 Dimensions of Chains .....	5
8 Sprocket Tooth Form .....	10
<b>Tables</b>	
1 General Chain Dimensions, Ultimate Strengths, Proof Loads, Strand Length, and Chain Length Measuring Loads .....	6
2 Maximum and Minimum Controlling Dimensions for Interchangeable Chain Links — Cast and Welded Steel Chain Only .....	8
3 Chain Clearance Dimensions .....	9
4 F22-6 Attachment .....	11
5 F22-8 Attachment .....	12
6 A-42 Attachment .....	13
7 F-2 Attachment .....	14
8 K-2 Attachment .....	15
9 M-1 Attachment .....	16
10 Pressure Angle, Pitch Diameter, and Clearance Circle .....	17
11 Maximum Eccentricity and Face Runout at Bottom Diameter .....	17
12 Chain Saver Rim Diameters (Curved Sidebar Chains Only) .....	18
<b>Mandatory Appendix</b>	
I Engineering Characteristics .....	19
