

OUTSTANDING STUDENT SECTION ADVISOR AWARD CRITERIA

The Outstanding Student Section Advisor Award recognizes the leadership and service qualities of an ASME Student Section Advisor who has completed at least 3 academic years as a Student Section Advisor prior to nomination for the award.

A nomination for this award is expected to substantiate the leadership and service qualities of the nominee by reference to accomplishments in at least the following areas:

- Providing guidance to the Student Section on the activities and programs that will stimulate interest in the profession
- Create a professional awareness in Students' Members which will inspire them to upgrade to Member before graduation and to maintain a continuous active membership in ASME
- Encourage Student Section officers to get involved and participate at ASME training, conferences and competitions
- Acting as a liaison between the ASME and the Student Section members
- Encouraging engineering students to become Student Members as their initial step in their program of professional development
- Facilitating interaction of Student Members with the local ASME Section
- Working with the department chair to encourage the support of the ASME Student Section activities
- Supporting the Student Section and guiding students activities
- Participating in ASME student related activities

Nominations should be send to Fran Mckivor at mckivorf@asme.org by March 15.
