

Track 6 – Industry, Government Lab and Academia Posters

Submit your abstracts!

Due December 20th, 2017

Misconception: – *It's okay if I submit late, it won't matter...*

WRONG!

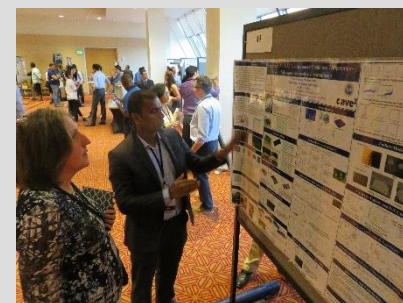

Letting us know by the deadline that you want to be a part of this program allows us the ability to plan and solicit funds to make this event even better!

Help us help you...

With better numbers of participants up front, we can solicit funds that are going to promote better attendance which will lead to more of these career-changing interactions...

More industry and academic leader presence leads to more exposure for YOU!

Limited Travel Reimbursement Available!

The earlier you get in your abstract, the better chance you have at guaranteeing your travel is covered...
