Click on Change Program and then click on the Needs Attention section. In this section is where any incomplete actions can be conducted, including load final paper.

Click on "Needs Attention."

Read the instructions on the next page and continue to submit your final paper. Papers must be submitted in PDF format (NOTE: DO NOT PASSWORD PROTECT YOUR PDF FILE). See also formatting my paper for detailed instructions on how your final .pdf should be formatted.

Read and check the required acknowledgements and then select "choose file" to upload your final paper.

Statement For Final Paper Submission	I understand that ASME does not accept revised final papers and that my paper is publication ready at the time of submission.
Presenter Attendance Policy	I understand that, pursuant to ASME Policy 12.1, in order for this paper to be published in the official ASME archival Proceedings, which are registered with the Library of Congress and are also published in the ASME Digital Collection, this paper must be prevented at the conference by an author/co-author of the paper. If this criteria is not met, I cannot cite this paper as a published paper, and if deemed by reviewers to be of journal quality a cannot be submitted to or considered by any journal as an ASME conference paper.
Upload Final Paper 单	PDF format required Choose File No file chosen PREV SAVE

Click "Save and Finalize." or "Save" depending on what option appears.

Once uploaded you will receive a confirmation of success and be returned to the paper status page.

# PROBLEMS LOADING FINAL PAPER

## FINAL PAPER SUBMISSION DEADLINE HAS PASSED

If you are attempting to submit a paper after the final submission deadline then our system will block the paper from being submitted.

We do have submission deadlines for all final .pdfs on every ASME conference that are usually a few months before the actual conference beings. These deadlines are necessary to allow staff the time needed to prepare the conference website. Even for virtual and hybrid conferences, authors must meet submission deadlines for their paper to be included in the conference.

To check when the deadline is for a specific conference then please check the conference website. Final paper submission deadlines are posted on the conference websites for reference.

#### I CAN'T LOAD MY PAPER

There are typically three reasons that authors have issues with loading a final .pdf.

Unsigned Copyright Agreements

Registration Issues

### LOADING REVISED FINAL PAPERS

ASME does consider all final conference submissions "camera ready". If there is an issue with formatting that requires a revised final .pdf then this request is made directly to the contact author. These solicited requests will include a specific deadline and instructions on how to revise and submit the revised paper. No additional revisions will be allowed. Revisions requested by ASME staff will be handled directly by the staff that is requesting the revision.

All revisions to an accepted conference papers would need to would go back to reviewers for comment. Due to extremely tight time constraints for conference submissions, we do not have the ability to allow authors to redo the review process on conference papers.

Additionally, all papers that are published on the digital collection are considered final representations. If your requested change is serious, then you may follow our retraction process to request removal of your published submission.

#### EXPIRED COPYRIGHT AGREEMENTS

When a copyright agreement appears in the system as **Expired**, this means that the copyright was signed by the author after the copyright submission deadline. Unless you are directly notified otherwise, expired copyright agreements are not considered valid. Signing an agreement after the deadline will not resolve copyright issues that were not addressed before the submission deadline.
