FORMATTING POSTER

Example Sections

- Project Objectives and Goals
- Background
- Methods & Procedures (can use “Experimental”, “Numerical”, or “Analytical”)
- Data and Results
- Conclusions
- Future Studies / Recommendations

Acknowledgements

References

The sizes of the section boxes can be adjusted as needed.

Use illustrations and/or figures to help elucidate points and expand on the written material.

Poster Heading

Include the poster title, authors list, and affiliation(s). Use superscripts to annotate affiliation(s). The first author SHOULD be the presenting/registered student. Typically, a title font size is 72 pts with maximum of 3 lines.
Your abstract was assigned a 5-digit paper number. Insert the paper number (replace xxxxx) in the template toward the upper right corner below ASME logo. Moreover, please add the Poster Number (replace #), the Track Title (replace yyyy) and Track Number (replace Y), along with the Topic (replace zzzz) and Topic Number (Z). (Font size 44 pt.)

**Project Objectives and Goals**
Describe your project (font size 32 pt.)

**Background**
Describe author background (font 32pt.)

**Methods and Procedures**
Can use “Experimental”, “Numerical”, or “Analytical” if desired

All posters are suggested to be 48-inches wide by 36-inches high, as used for this template.

**Conclusions**
Describe your research findings and summarize your conclusions (font size 32 pt.)

**Future Studies/Recommendations**
Describe or itemize near-term future studies or recommended future work (font size 32 pt.)

**Acknowledgements**
List individuals or agencies that you wish to thank
Provide funding information

**References**
All references should be in the following format (font size 20pt.)

[1] Citations List, use Digital Object Identifiers (DOIs) when possible

SAMPLE LAYOUT
Typically, heading fonts are Arial 44 pt. and body text fonts are Arial 32 pt., except publication and reference lists in Arial 20 pt. Use large fonts so audience can read quickly and easily.
Alternative Poster Layout

Notes for authors:

The following describes example directions for an alternative poster. The goal is less text and more eye-catching information that is readily digested by the audience.

---

**Title (max font size at 72; back-strip blue) (maximum 3 lines)**

First Author, Additional Author(s)
Department Name, University Name

---

**Introduction**

Describe your project objectives and goals here (font size 36 point).

**Methods & Procedures**

Describe your background here... (font size 36 point).

**Data**

Highlight what data you have taken, simulation, experimental, etc. (font size 36 point).

**Results & Discussion**

Describe your research findings (font size 36 point).

**Conclusions / Recommendations**

Describe your conclusions, recommend future studies or recommend future work (font size 36 point).

**Acknowledgments**

- Authors and/or collaborators
- Funding, etc.
- Other acknowledgments
- Instead of text, use pictures or funding institutions logos

**References**

- Authors, etc.

---

**Eye catching material that is easily seen and read by the audience from a distance**

**BIG OUTCOMES = BIG TEXT (What is the one thing you want your audience to leave with?)**

Have one picture that says everything you want it to? Put it here and make it informative (e.g., text boxes & arrows highlighting important information).
