

## ASME Membership: Exclusive benefits that give you a competitive advantage!

Join ASME and you're instantly a part of the global engineering community with immediate access to a wealth of exclusive services, tools and resources. Here are just a few benefits of ASME membership:

- Free access to the AccessEngineering online reference tool with over 800 essential titles
- A free subscription to *ASME SmartBrief* news digests delivered by email every weekday
- A free subscription to *Mechanical Engineering* magazine
- ASME Career Center with targeted opportunities exclusively for engineers
- The ASME.org website to connect with engineering peers and colleagues around the globe
- ASME's Mentoring Program, providing rewarding experiences for both mentors and mentees
- Access to ASME's Technical Divisions
- Networking online and in your area
- Discounts, special offers and much more!

*"ASME helps me make a real difference in my profession and in the world. It gives me the tools to search for applicable standards, it alerts me to gatherings and courses I may not have known about, and it can help to support a volunteering opportunity."*

Christopher O., ASME member since 2004

Market Code: PROBROCH21  
FY21

## JOIN ASME

Build skills, make connections, find jobs and *engineer your future*. Learn more and apply online at:

*"I am proud to be a member of such a distinguished group of individuals. The experience and technical depth that the ASME organization provides is unsurpassed. The wealth of relationships built and colleagues met will stay with me forever."*

Bruce W., ASME member since 1982

A successful career takes  
**talent,  
intelligence...  
& membership**

Join **ASME**

# Discover how ASME helps you engineer your future, every step of the way.

## Join ASME, the essential association for engineers and technical professionals.

ASME (The American Society of Mechanical Engineers) is a not-for-profit professional organization that enables collaboration, knowledge sharing and skill development across all engineering disciplines. Founded in 1880, and with over 100,000 members in 140 countries, **ASME is the most important connection** a mechanical engineer can make.

Whether you're still in school, just graduated, or you're a seasoned veteran managing dozens of team members, ASME membership gives you the tools, professional training, information and connections you need to succeed at every step throughout your career - and it allows you to have a direct impact on your profession, your community and the world.

### Connections.

Network online and in your area with a community of talented technical professionals.

- Technical meetings and conferences
- Online social communities (ASME.org, Facebook, LinkedIn, Instagram and Twitter)
- Local section meetings and activities

### Unlimited access.

Gain fast access to comprehensive, constantly updated technical resources to inform and inspire your work.

- *ASME SmartBrief* daily summaries of essential engineering news
- The award-winning *Mechanical Engineering* magazine
- AccessEngineering online reference tool with 800+ handbook titles on all engineering disciplines
- ASME journals, publications and much more

### Comprehensive resources.

Enhance your technical knowledge and your managerial skills – and discover opportunities to advance your career.

- ASME Career Center featuring opportunities exclusively for engineers
- Valuable articles, career management strategies, webinars and additional career resources

### Opportunities to get involved.

Use your skills to create a better world and a healthier future through rewarding volunteer programs and partnerships.

- Engineering For Change
- ASME Programs & Committees in areas ranging from Codes & Standards to Global Outreach and Engineering Education and many more

### ASME.org – the essential online destination

**ASME.org** gives you access to everything ASME has to offer: Learning & Development; Publications; Conferences & Events; Codes & Standards; Certification; Getting Involved and more.

*"I am proud to be part of an organization that has had such a big impact on today's engineering world. It has opened several opportunities for me and is great to keep up with an ever changing field."*

Juan P., ASME member since 2008
